

## CONCOURS SCOLAIRE – DIS-MOI DIX MOTS

The French Institute in Qatar is delighted to invite schools to discover French language by participating in this year's edition of "Dis-moi dix mots". Every year, various French-speaking partners of the OPAL network, pick out a theme to promote the flair of the French language and then choose ten words to illustrate it. In 2021, literary creations will meet graphic conception to inspire students to celebrate the year of comics (2020-2021) with the theme of "Air in All Its Forms".

In collaboration with other schools/classes/artists, etc., the competition invites schools to create or co-create an artwork incorporating both text and still or animated illustrations. Ten words are presented here, as an invitation to travel, reflect, pleasure and immerse yourself in poetry and get carried away by the breath of your own imagination with: aile, allure, buller, chambre à air, décoller, éolien, foehn, fragrance, insuffler, vaporeux. (wing, look, bubble, air chamber, take off, wind turbine, foehn, fragrance, breathe, vaporous).

### WHO CAN PARTICIPATE?
